Roblox Game Description The stats page for Roblox, seen in this screenshot, shows the game's registered users, who includes all users who've created a game, plus users who've downloaded that game for free. The top row shows the number of games created for Roblox overall, the second row shows the number of players for each game, and the third row shows how many games a particular user has made. Courtesy of the Internet Archive "I was actually asked by Apple if I could give them a list of tools to assist in their case," said Ken Levy, the president and chief executive of Landov, the producer of the company's package. However, Levy said he felt the automation support would benefit the entire game creation industry. "As game developers continue to grow, we've seen a lot of game makers who simply don't have the time to build the tools that are necessary to create a complete game," he said. "We believe that these tools, and these packages, are the only way that the entire industry can really find long-term profitability." "We've got a big life ahead of us, but we're having to retool and in some ways reinvent ourselves as a company," said Ken Levine, the game designer for BioShock and the creator of Irrational Games, which was acquired by 2K Games in 2011. Levine echoed Levy's sentiment, saying that game creation is in flux in the face of a pandemic that has halted the industry's growth. "The industry has stepped away from this story as much as it's possible to step away from it," he said. "But that's not a permanent thing, this re-strategizing and re-evaluating of what is and is not work, and what is and is not worth doing." Levine said the environment of game development is so dynamic right now that it can't be predicted. "This is an industry that has always been volatile and ever-changing," he said. "A lot of the things that are easy to do in the face of a pandemic are things that the industry itself made irrelevant." The game industry is locked down, so it's a perfect time to start
