It is a surety that most businesses are having a visible presence on the internet. However, the goal of online transactions in a business is to have a professional online presence that secures its customers' and clients' identity. Unfortunately, building a professional online presence is very different from what we can do now and in previous years. The improvement is limitless, but most of us don't want to be the driving force behind the entire online presence of a business. We are living in the age of the automated and if there is one factor that is predominant in the present, that would be the automation. So how can we make sure that we get in the automation race and become relevant in it and what we need to do to ensure that we are automated? You don't have to be a part of the automation to be a Smart Business, but if you are, you have to think of your entire online presence in an automated way. This isn't easy, but a mission can be your guide. Every business that pursues smart business needs to automate what 6d1f23a050
